Identification of the material/object

Product name: Gary's Wood Balm

Composition:

- White mineral oil, food grade.
- Organic beeswax, food grade.
- Organic carnauba wax, food grade.

Appearance: Pale yellow liquid oil with a natural wax scent.

Intended use: Protective and conditioning oil for wooden kitchenware intended for food contact (e.g. cutting boards, butcher blocks, wooden utensils, salad bowls, countertops).

Confirmation of compliance

When applied as instructed, this product complies with the Danish Regulation on Food Contact Materials, BEK 681 of 25.05.2020, and Regulation (EC) No 1935/2004, by also meeting the requirements of US-CFR Title 21 §172.878, §184.1973 and §184.1978.

Specifications for use

Food types: Suitable for contact with all food types.

Conditions of use:

- Application: Apply a thin, even coat to clean, dry wooden surface.
- Soaking/Wipe off: Allow the balm to penetrate fully, then wipe off excess before use with food.
- Not intended for direct use in or on food.

Supporting documentation

Full product specification, technical data sheet (TDS), and food contact compliance certificates for the mineral oil, product data sheet (PDS) and EU organic / food grade documentation for the beeswax, and technical data sheet (TDS) and EU organic certificate for the carnauba wax, are available upon request.
